EDUCATION

Bachelor's Degree in Computer Science (2020 – 2024)
Royal University of Phnom Penh

High School Diploma, Bac II (2019 – 2020)
Preh Sihanouk High School

EXPERIENCE

Web Developer | IDG Technology Solutions | 2023 – Present
- Developed and deployed web applications with Nuxt.js and Laravel API.
- Integrated Firestore for real-time functionality, improving data access speed.
- Designed and optimized APIs, enhancing scalability and performance.

Instructor | Etec Center | 2022 – 2023
- Taught Basic Programming (C, C++) and Object-Oriented Programming (OOP).
- Delivered courses on Web Development (HTML, CSS, Bootstrap, PHP, MySQL).

PROJECTS

Accounting system
- Built a financial system for managing transactions (deposits, withdrawals, transfers).
- Automated cash flow monitoring and reporting tools.

Loan system
- Developed a loan management system to automate applications and repayment schedules.
- Implemented reporting features to enhance loan workflow efficiency.

Soccer Website with Cloud Firestore
- Built a real-time soccer web app with Cloud Firestore for live scores and match schedules.
- Integrated external APIs with SSR for seamless video streaming.

Hotel Management System
- Created modules for invoicing, housekeeping, mail management, and expense tracking.
- Streamlined hotel operations with automation.

Human Resource Management System
- Developed modules for Department, Job Position, Allowance, Deduction, Staff, Payroll, and Payslip.
- Automated payroll and employee management processes.
